Ahmed Maher

JUNIOR FRONTEND DEVELOPER (REACT)

Cairo, Egypt | 01019604300 | mail.ahmedmaher@gmail.com | https://www.linkedin.com/in/ahmed-maher0/ | GitHub

PROFESSIONAL SUMMARY

Junior Frontend Developer specializing in React, JavaScript (ES6+), HTML5, and CSS3. Solo-built a Game Hub platform that lets teachers swap live activities in under 3 seconds — a real production result, not just coursework. Advancing full-stack skills through the DEPI React program (Ministry of Communications & IT) and daily practice on Codeforces and LeetCode. Grounded in OOP, Data Structures & Algorithms, databases, and Node.js/Express for API integration and backend fundamentals. Brings freelance experience delivering 10+ client projects end-to-end, plus business acumen from a Commerce/Accounting background. Seeking a junior or freelance Frontend role to build fast, accessible interfaces while growing into full-stack engineering.

PROFESSIONAL EXPERIENCE

DEPI (Digital Pioneers Initiative), Ministry of Communications & Information Technology — Cairo, Egypt
React Frontend Web Developer Trainee | *06/2026 – Present*

- Selected as Team Leader among 30 peers in an intensive 120-hour React Frontend Web Developer track, guiding the group through hands-on assignments.
- Built 50+ front-end applications and assignments using HTML5, CSS3, JavaScript, and React, applying modern UI/UX principles and Git/GitHub version control.
- Mentored 5+ trainees on JavaScript and React fundamentals, clearing technical blockers and increasing assignment completion rate by 15%.
- Co-developed curriculum modules on Node.js/Express, Docker, and unit testing, and led peer code reviews, helping 10+ trainees build full-stack skills.
- Applied industry-standard code style, documentation, and Git workflows to ship interview- and freelance-ready projects.

Self-Employed — Remote
Freelance Web Developer | *01/2026 – Present*

- Delivered custom websites and web applications for 10+ clients across multiple industries, translating business requirements into functional, deployed solutions.
- Owned the full project lifecycle — scoping, development, API integration, deployment, and handoff — using React, Next.js, TypeScript, and vanilla JS tailored to each client.
- Managed client communications for scope, timelines, and revisions, delivering 10+ projects on schedule with a 100% satisfaction rating.
- Built long-term client relationships through freelance platforms and referrals, securing 5+ repeat or referral-based projects.

EDUCATION

Damanhour University — Al Beheira, Egypt
Bachelor's Degree in Commerce, Accounting — Grade: Very Good (4.0)

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design, Accessibility, Performance Optimization

Backend Development: Node.js, Express.js, TypeScript, RESTful API Integration, Full-Stack Development Fundamentals

Computer Science Fundamentals: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Design, SQL

Tools & Practices: Git, GitHub, Version Control, Code Reviews, Agile Collaboration, Unit Testing, Docker Fundamentals, Deployment (Vercel)

PROJECTS

Interactive Game Hub for Online Teaching Academies

games-hub-eight-beta.vercel.app | *08/2026*

- Solo-architected an interactive Game Hub platform in vanilla HTML, CSS, and JavaScript, giving educators a library of playable modules for remote lessons.
- Increased student engagement in live sessions by enabling teachers to swap activities in under 3 seconds — the platform's core performance win.
- Engineered a fully responsive layout using pure CSS, tested across desktop and tablet with zero reported layout issues.
- Independently deployed the platform end-to-end, from game logic to live hosting, for recurring daily teaching sessions.
